

GAME OVERVIEW

The Big Go Kart Race is coming soon and you need to build a Go Kart to compete. The catch: your Go Kart must be built from junk yard parts. Head to the junk yard where parts are prevalent but the *right* parts are harder to find. You must finish quickly but also build the best kart to win the game!

A trick-taking game with a twist. Players will play a series of tricks. After each trick, each player will draft one card from the trick. The goal is to collect all 8 of your go kart pieces while ensuring that as many parts as possible match (same color).

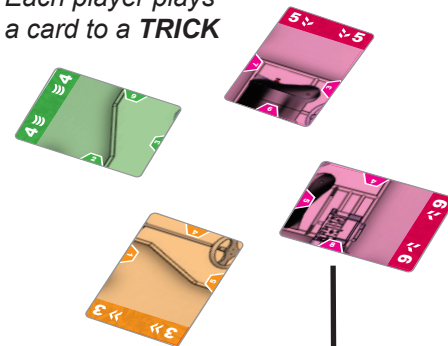

The decisions lie in which card to play and when. Do you play a card to a trick that you want to draft or do you play a high card that can win a trick which will allow you to draft a card from the trick before anyone else? The choice is yours!

WHAT MAKES JUNK YARD GO KARTS RUN?

- A new twist to trick-taking: blending it with drafting and set collection
- Fast-playing, simple rules with cards being the only components
- Family-friendly with interesting decisions for experienced players
- All players gain a card from each trick moving them towards their goal
- Player choices can help mitigate luck

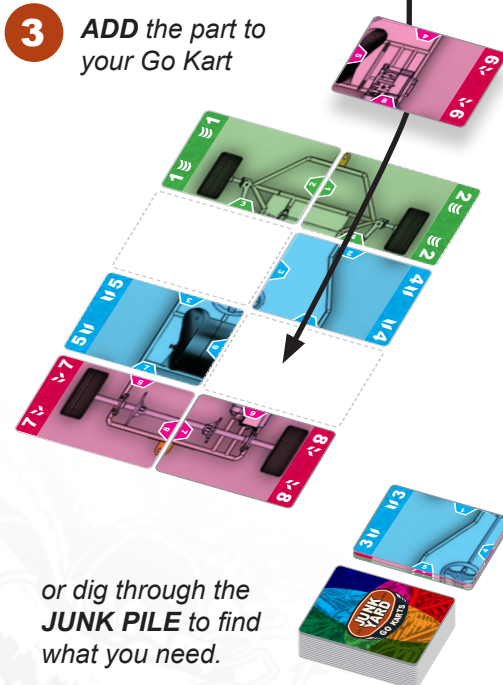

Build the best go kart as fast as you can out of junk yard parts to win the game!

- 1 Each player plays a card to a **TRICK**

- 2 **DRAFT** a card (part) from the trick

- 3 **ADD** the part to your Go Kart

or dig through the **JUNK PILE** to find what you need.
